

## INTERN, ENERGY EFFICIENCY ENGINEERING

At GreenerU, we envision educational and community institutions leading the world in mitigating climate change. Our mission is to help our clients achieve climate neutrality and sustainable operations.

GreenerU helps institutions navigate the organizational, operational, and infrastructure changes required to reach climate neutrality through planning, engineering, and implementation. We're in this because we care—about the planet, about our clients, and about each other.

We are looking for a committed, passionate, fun, and energetic individual to join our team.

### THE POSITION

GreenerU seeks an energy efficiency engineering co-op/intern who is interested in finding built environment solutions to fighting climate change. We are a busy, fun and supportive workplace with a staff ranging from climate action planning professionals to energy engineers to construction managers. The energy efficiency engineering co-op will report to the Vice President of Engineering. The wage is \$23 per hour.

### REQUIRED SKILLS AND EXPERIENCE

- Completed or nearly completed bachelor's degree; working towards a master's degree in energy engineering or related field is a plus
- Strong verbal and written communication skills
- Strong analytical skills
- Familiarity with building energy systems, specifically lighting, HVAC systems and associated engineering principles
- Familiarity with reviewing building energy / utility data and billing information
- Ability to problem solve and work independently
- Interact in a positive and constructive fashion with client personnel and potential subcontractors and vendors
- Proficiency with MS Office, especially Microsoft Excel; proficiency in database systems is a plus

### PRINCIPAL DUTIES

- Support field investigations of existing building systems, including energy audits, especially for lighting and HVAC work
- Assist project developers in designing solutions and developing cost estimates for the work
- Assist in project delivery through work with project and construction managers, including updating project schedules, documenting as-built conditions, addressing field engineering challenges, and learning to use a variety of project management software

GreenerU offers ample learning opportunities and an inside look at how many of our clients—college campuses, independent schools, and nonprofit organizations across the country—are approaching and leading climate change mitigation. We offer a flexible schedule and a (mostly) remote working environment.

Candidates are encouraged to apply to [careers@greeneru.com](mailto:careers@greeneru.com) by providing a resume and one-page cover letter describing your interest, skills, and relevant background experience. **No calls, please.** GreenerU is an affirmative action, equal opportunity employer and encourages candidates of diverse backgrounds to apply. All staff are expected to be fully vaccinated for Covid-19. **For more information about GreenerU, please visit our website at [www.greeneru.com](http://www.greeneru.com).**
